Style Guide Updates: References

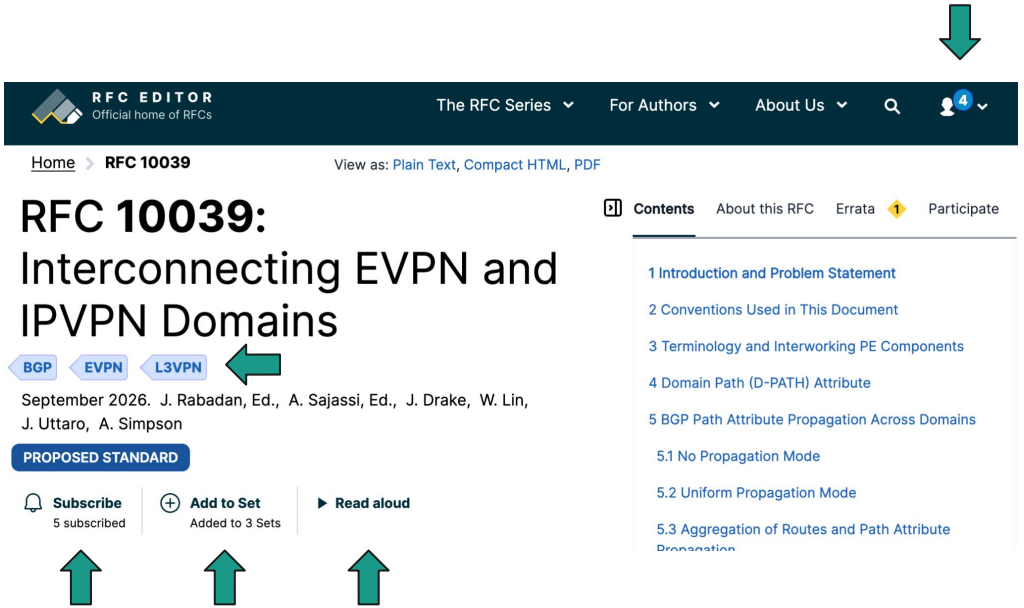

draft-rpc-rfc7322bis-05

Still a work in progress. Summary of changes:

- Moved info about reference formats to authors.ietf.org
- Clarified that RFCs can have informative (only), normative (only), or both sections.
- Clarified that specification of informative and normative references are required for RFCs of all statuses and streams.
- Added text about reference stability and evolving resources (e.g., living standards)

www.rfc-editor.org updates

- Subject tags - help readers find related RFCs in a more structured way (https://www.rfc-editor.org/subjects/)
- Subscriptions and notifications - readers can subscribe to receive notifications about RFC changes and errata, and about newly published RFCs
- Sets - readers can organize RFCs into sets and share the sets with others
- Accounts - allow readers access to the sets and subscriptions features
- Accessibility features - readers can adjust text size and spacing of text, lines, words, and paragraphs. Text can be read aloud.
- Surveys - gather data that will help improve the website
